

Tub Spout 6234-K0-80CP

INTRODUCTION:

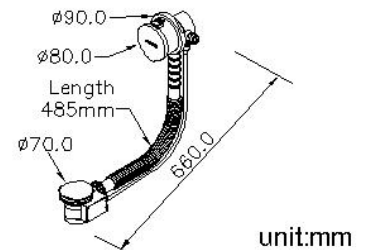

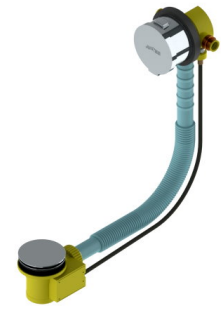

Still One Bath Mixer W/ Pop-Up Waste & Overflow has been designed with simple round shape plus various operating functions. Users would have a crush on its comfortable and smooth operating as first contact.

Besides normal functions of drainage and overflow, the brand-new mixer design of Still One could control cold and hot water supplies in the same product, so that users will not need extra bathtub faucet or hot and cold valves for saving the cost and bathroom space. Especially, the water temperature control has been designed to start from cold to hot water for protecting our users from accidental scalding.

Still One has been combined ALL function of temperature control, bathtub filler, drainage, and overflow in ONE design to replace complicated devices and make bathrooms be well-executed and easy to maintain.

DESCRIPTION:

- 1.Lifespan test of valve has passed 390,000 times which is better than 250,000 times from ASME A112.18.1-2005/CSA B125.1-05 standard.
- 2.Chrome plated finish meets the standard of ASTM-SC2.
- 3.Material of handle meets JIS 3771 standard.
- 4.Mix water flow rate is more than 30L/per minute under 2 kgf/cm² water pressure.
- 5.Use stainless steel 304 material for wire-line to increase the durability.
- 6.Use PPO (Polyphenylene Oxide) as the main material of mixer body
- 7.For making the water outlet be perfect waterfall-shaped, design team chose the sector-shaped rubber with PPO material protects the rubber from out of shape.
