Tub Spout 6874-9W-81CP

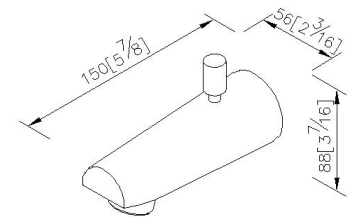

INTRODUCTION:

The chrome plated tub spout has a great texture, could go with all kinds of interior design. Spout structure can stand a high water pressure, which allows it to provide massive water flow. And with its special outlet design, the flow will come out consistently without splashing around.

DESCRIPTION:

1. Material of die casting body meets ISO CuZn40Pb standard.
2. Brass with Chrome plated finish meets ASTM-SC2 standards.
3. Thread of water inlet: 3/4NPT.
4. With diverter.

unit: mm[inch]
