

Bath/Rainshower System 6903-BD-80CP

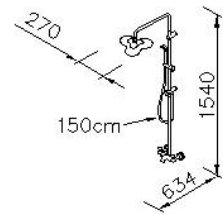

INTRODUCTION:

The overall shape of the STORY Rainshower System is smooth and funny, allowing users to feel the intimacy of the product, shortening the distance between the product and the user, and allowing users to easily enjoy a comfortable shower time. With a simple round shape as a design element, the round shape of the faucet softens the bathroom atmosphere and avoids accidental injuries caused by collisions. The combination of white ceramics and copper plating presents an unique sense of vision. The combination of shower faucets with multiple functions allows users to learn multiple shower experiences in the bathroom space and enjoy a comfortable time.
