

Basin Faucet 7779-90-80CP

INTRODUCTION:

Design Team created the Pan 2 Faucets with concise style, and integrated rectangular and circular lines into the shape design to fit for different basins easily and provide users various choices. Though it has just used the most basic geometric elements, the design team also varied the faucets to be special and bring the positive benefit for bathroom.

"Pan-," a combining form meaning "all." We are eager to hope all users would have chances to experience our high-quality products, and it could start from this Pan Series which has perfect harmony with various basins and bathroom designs.

DESCRIPTION:

- 1.Ceramic valve with KOREA ceramic disc.
- 2.Handle can be moved up to adjust water flow from closed position; hot and cold water can be controlled by swinging handle for both right and left sides.
